

ORADEA, BUSINESSES AND PROSPEROUS LIFE

The municipality of ORADEA is in everyone's attention when it comes to setting a positive example of local public administration in Romania. In the last 14 years, it has attracted investments worth 650 million euros only from projects with non-reimbursable financing, transforming the municipality into a jewel of Romania and CEE. No less than 44 projects are currently being implemented in the Municipality of Oradea, a large part being rehabilitation, health and urban mobility projects.

The investments made in recent years in Oradea have made the city situated along the Crisul Repede River one of the most attractive cities in Western Romania for investors. Many internationally renowned companies have recently chosen to invest in industrial parks in Oradea, benefiting from numerous facilities and support from the city hall, due to the good geographic position in the vicinity with Hungary and also the good connection at the highway. Among the significant investments attracted to Oradea are STIHL from Germany (125 mil Euro) and Nokian Tyres from Finland (650 mil Euro).
