

## Oradea, businesses and prosperous life

The municipality of Oradea is in everyone's attention when it comes to setting a positive example of local public administration in Romania. In the last 15 years, it has attracted investments worth 1 billion euros only from projects with non-reimbursable financing, transforming the municipality into a jewel of Romania and CEE. No less than 150 projects are currently being implemented in the Municipality of Oradea, a large part being rehabilitation and urban mobility projects.

The investments made in recent years in Oradea have made the city situated along the Crisul Repede River one of the most attractive cities in Western Romania for investors. Many internationally renowned companies have recently chosen to invest in industrial parks in Oradea, benefiting from numerous facilities and support from the city hall, due to the good geographic position in the vicinity with Hungary and also the good connection at the highway.

Among the significant investments attracted to Oradea are STIHL from Germany (125 mil Euro) and Nokian Tyres from Finland (650 mil Euro).

## Link road Oradea Belt - A3

The road has a length of 19.07 km from the road and connects the belt of the Municipality of Oradea with Highway 3. The deadline for completion, according to the contract, is May 2024.

The value of the execution contract is 109 million Euro.

## ORADEA CAMPUS

ORADEA CAMPUS is a project for dual education where students entering the 9th grade in the 2023-2024 school year can enroll and want to learn a job of the future, well-paid and highly sought after on the labor market.

The project is formed in the form of a Consortium with 18 members, namely two public authorities: Bihor County Council (project leader) and Oradea City Hall, five educational units, Oradea University and the Bihor County School Inspectorate, private companies and associations.

The fields that can be studied from this autumn are mechanics, construction, installations and public works, electromechanics, electronics and automation and industrial chemistry. In the Campus there will be functional laboratories, practical workshops for different specializations.

The project has a total value of 29,2 million Euro. Funding is provided by PNRR.

## ORADEA AIRPORT

Oradea airport has completed projects worth over 66 million euros: the extension of the runway by 420 meters (from 2,100 m to 2,520 m), the extension of the passenger terminal (the surface of which will increase 4 times compared to the previous situation) and the installation of a smart perimeter fence.
